# 6-30 TONS | WITH EC PLENUM FAN

Dual Circuit Reliability Now with Added Efficiency

# SERIES 9

## ENERGY EFFICIENCIES

- EC direct drive fans are more energy efficient than belt driven fans.
- Variable speed EC fans run only as fast as necessary.
- Plenum fans develop static pressure which delivers air evenly to where perforated tiles are placed, reducing hot spots and energy requirements.
- Maintenance-free brushless EC motors.

## MAINTENANCE FRIENDLY DIRECT DRIVE

- The need to adjust or replace noisy or worn out belts is eliminated forever.
- You will no longer need to change dirty filters that have been clogged up with belt dust.

**Currently available on:**  
**Air Cooled DX & Dual Cool**

## ATTENTION TO DETAIL

- Should the fans need to be removed, they can be pulled out of the front of the unit.
